Pencil Bow Ornament Option 1

STEP BY STEP INSTRUCTIONS

YOU'LL NEED:

- White cardstock paper
- Crayons, colored pencils or markers (Only if you choose the black and white template)
- Scissors
- Self laminating sheets
- Hole punch tool
- Permanent marker and/ or pen
- Glitter
- Ribbon or string

PLEASE NOTE: FOR PERSONAL USE ONLY. NOT FOR COMMERCIAL USE OR RESALE.

INSTRUCTIONS:

Pencil Bow Ornament Instructions for Option 1

Print Out:

Print out your pencil ornament template on white cardstock paper, choosing either the black and white version or the pre-made colored choice.

Color:

If you chose the black and white version, have your child color their pencil bow with either crayons, markers, or colored pencils.

Cut Out the Printable Elements:

Cut out the pencil bow with a pair of scissors as well as the circle shape to the side that is labeled option 1.

Snip the Middle Section:

Cut out the middle center of the bow ornament (you can use a hole punch to get you started).

If you have white edges after cutting the inside, you can touch it up with a black sharpie for a more polished look.

Trace Photo to Size:

Use the circle shape provided with the template, trace and outline any picture you choose to use. To do this, I printed a 6x8 cm wallet from my computer. You can change it in the printer settings before you print, creating the perfect size. Make sure the photo is aligned within reason of the circle shape element so you're not cutting off any important features (like an eye or pigtail). Once you have traced your photo, cut around your line with scissors.

Personalize:

You can write (or have your child) sign their name along with anything else you would like to add such as the year, or their grade level in the eraser portion.

Seal with Self Laminating Sheets:

Now grab your self-laminating sheet, cut it in half. Peel back the backing of the paper and lay it on the table with the sticky side up. Set the printable pencil bow template down on the sticky part, keeping away from any edges. Place your photo centered in the middle. Carefully add any glitter around the photo gap onto the sticky paper. Once the glitter is stuck, it's stuck.

Peel the backing off of the second half you cut. Put the sticky side right over the top of everything.

Smooth and press it flat, pushing out any air bubbles. Cut around it with scissors.

Add Hole and Ribbon:

Put a hole with your hole punch tool and tie a ribbon to hang!

INSTRUCTIONS:

Pencil Bow Ornament Instructions for Option 2

Print Out:

Print out your pencil ornament template on white cardstock paper, choosing either the black and white version colored choice.

Color:

If you chose the black and white version, have your child color their pencil bow with either crayons, markers, or colored pencils.

Cut Out the Printable Elements:

Cut out the pencil bow with a pair of scissors, as well as the circle on the printable template labeled "option 2".

Trace the Photo to Size:

Take the option 2 circle shape you cut and trace the outline of any picture you choose to use. To do this, I used a regular 2.5 x 3.5 wallet size (a 2x3 works well too). Make sure the photo is aligned within reason of the circle shape element so you're not cutting off any important features (like an eye or pigtail).

Once you have traced your photo, cut around your line with scissors.

The photo will fit the whole circle versus having a transparent outline where you would see through the laminating film (as in option 1 above). Position the photo straight and centered and glue it to the inside circle of the bow.

Personalize:

You can write (or have your child) sign their name along with anything else you would like to add such as the year, and their grade level in the eraser portion.

Seal with Self Laminating Sheets:

Now grab your self-laminating sheet, cut it in half. Peel back the backing of the paper and lay it on the table with the sticky side up.

Set the printable pencil bow down on the sticky part, keeping away from any edges.

Peel the backing off of the second half you cut. Put the sticky side right over the top of everything.

Smooth and press it flat, pushing out any air bubbles. Cut around it with scissors.

Add Hole and Ribbon:

Put a hole with your hole punch tool and tie a ribbon to hang!
